

Annual Report 2015 Honoring Eva Foundation

This annual report informs you about the 2015 activities of the Honoring Eva Foundation. As you know our mission is to support students with scholarships in the 4 Year Training for Core Therapist and in the 2 Year Transformational Program.

Building on this mission we received the tremendous support of € 27.834 from sponsors/donators and through all kind of activities. We were so encouraged by all donations that we could offer 7 scholarships (€ 10.620) and 6 loans (€ 5.420).

In 2015 we succeeded in:

- making the Foundation more alive and visible in the community
- finding a new balance between helping and enabling students
- finding new creative ways and ideas to generate money

We are very happy with the commitment of the students that organized several activities to raise money. The school itself also showed its strong support by providing us with the space to hold our meetings and to encourage our announcements during training weekends. Next to that they organized activities to raise money and donated a percentage of the tuition of each student to the fund.

The Eva Foundation organized a Thank-You-Dinner that was visited by 20 Donators and Faculty Members. They offered us new ideas and gave us a warm helping hand in continuing our activities.

*„You are never so poor too give
You are never so rich too receive.“*

(African sayng)

In order to strengthen the managerial capacity and network we started to bring in new board members. While writing this, we are happy to welcome 3 new members who are willing to commit themselves.

We also see a growing amount of new and creative ways to raise funds.

In the meantime we like to be in touch with you. Your positive thoughts and actions are of great help in providing the CE-process to new and present students.

Thank you all for your support and feel welcome to communicate your ideas and thoughts!

Warm regards,
Heleen de Winter
Secretary Honouring Eva Foundation

Members of the board 2015
