The story so far...

The Honouring Eva Foundation was founded in 2010 with the motivation to make the training of the Netherlands Institute of Core Energetics accessible to a wide range of students. In giving financial support for students with a strong motivation but lack in financial means. The Foundation is non-profit, meaning that 99% of all funds go directly to students.

Some changes through the years

- **Loans:** Instead of scholarships the Foundation does also provide loans. Students who have done the training and who will start a professional career pay back their loans, which can be used to fund the next generation.
- **Reciprocity:** Students who received scholarships are asked to give something in return. To organise an event like a book-sale for example.
- **Contribution:** Core4Core, the school, contributes 10% of the tuition fee to the Foundation.

What happened in 2017

As everything in nature the Foundation does also change and grow through the years. Here are some things that happened in 2017:

- **Committee:** After years of dedicated work Heleen de Winter, Marcel Vos & Nynke Sikkema have decided that it was time for the next generation. Sandra Le Poole, Marcel van Litsenburg & Wietse Keeren have joined the Board. The committee is as follows:
 - **Chair-woman:** Sandra Le Poole
 - **Finance:** Bert Stek
 - **Fund-raising:** Cees van Loon
 - **All-round:** Marcel van Litsenburg
 - **Office-support:** Anne Langedijk
 - **Secretary:** Wietse Keeren
- **Formalisation:** The reception of a scholarship/loan has been formalised by an official contract between the applicant and the Foundation.
- **Mission statement/intention:** With this new team we re-affirmed the mission statement to...

The Honouring Eva Foundation administers funds from donors and fundraising activities for granting scholarships and low interest loans to students who show great desire and passion for Core Energetics but do not have the financial means to enter or stay in the 2 year Transformation Training or the 4 year Practitioner Program at the Netherlands Institute of Core Energetics.

We are a non-profit organisation with our main mission to advance Core Energetics in the Netherlands by providing loans and scholarships, and by co-financing (inter-)national Core Energetics promoting activities.
